ABOUT ME

Hi, I'm Hasan Mahmud, a passionate and experienced WordPress Developer who loves building high-quality, user-friendly websites. With over 5 years of hands-on experience, I specialize in creating clean, responsive, and performance-driven websites that meet both business goals and user needs.

My journey into web development started with a strong interest in design and a curiosity for coding. I began my career as a web designer, but over time, WordPress truly captured my attention. Its flexibility, scalability, and powerful features inspired me to focus fully on WordPress development. Since then, I have been crafting customized WordPress solutions for clients, combining design sense with solid development skills to deliver reliable and effective digital experiences.

Work experience

WordPress Developer
bdCalling IT, Banasree Dhaka _____ 2023

I worked as a client-based WordPress Developer at BDCalling, delivering customized WordPress solutions based on client requirements. I was responsible for building, customizing, and maintaining WordPress websites with a strong focus on performance, responsiveness, and user experience. I regularly communicated with clients to understand project needs, provide updates, and ensure the timely delivery of tasks.

WordPress Developer
Skytech Solutions _____ 2023 - 2025

As a WordPress Developer at Skytech Solutions, I was instrumental in elevating the company's digital capabilities. My role involved developing custom WordPress themes and plugins tailored to meet specific client needs, ensuring high performance and a user-friendly experience. I collaborated with cross-functional teams, including designers, marketers, and content creators, to deliver cohesive and visually appealing websites.

WordPress Developer
RRDevs Software Company _____ 2025 - 2026

I am working as a WordPress Theme Developer at RRDevs, specializing in developing premium WordPress themes for the ThemeForest marketplace. I am responsible for building high-quality, scalable, and user-friendly themes that follow WordPress and ThemeForest coding standards. My role involves converting designs into fully functional WordPress themes with clean code, strong performance, and flexibility for end users.
